---

## PROJECTS

School website  
(brown International)

<https://brown-international-uv8u.vercel.app/>

This is an institutional website built using next js and typescript.

Ecommerce sys

<https://ecommerce-nextjs-puce.vercel.app/>

The system aims to bridge the gap in the modern ecommerce systems through personalization to enable the different sellers of products in the system to market their products with ease. Technologies used includes next js, postgres and tailwind.

---
