Junior Software developer

Personal Profile

As a fresh graduate awaiting for graduation later this year, I am a highly motivated and dedicated individual with a passion for learning and continuous self-improvement. I have developed a good foundation in programming languages such as Java, Python, and JavaScript. I have also gained experience in software development, web development, machine learning, dockers, and database management through internship and various projects. With excellent problem-solving and analytical skills, I am confident in my ability to design, develop and implement innovative solutions to complex technical problems. I am a quick learner and a team player who is passionate about keeping up with the latest trends in the field of technology.
